

Practical Test - PDLF - PHP Development with Laravel Framework

Duration: 1 hour - Total Marks: 15

FPT-APTECH has a library. There are thousands of books in the library. The school needs a website to manage book information. Make a website with the following basic features:

1. List all books available in the library
2. Search for books by name

Know that the table structure is as follows:

Name	Type	Collation	Attributes	Null	Default	Comments	Extra
bookid 	int(11)			No	None		AUTO_INCREMENT
authorid	int(11)			No	0		
title	varchar(55)	utf8_general_ci		No			
ISBN	varchar(25)	utf8_general_ci		No			
pub_year	smallint(6)			No	0		
available	tinyint(4)			No	None		

MARKS		
02.0		Creating database, table and Insert data
05.0		Display all Book
04.0		Search book by Name
04.0		Style for web page (css)
15.0		Total Marks
